BORN BORJ
DECOR

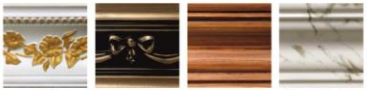

Specification of Polyurethane Simple Kitchen Molding

Product	Plain Cornice
Model Name	BB-PC 04
Material	Polyurethane (PU)
Color	White
Dimension	Depth:110mm × Height:115mm × Length:2450mm
Application	Interior and Exterior

PU Material

The density of PU materials is up to 240KG/M3, lighter than wood, but same hardness and touch feeling.
It is pest control, termites and moths do not feed on PU materials.
Fire rating to achieve the national B2 level, mean burning under the flame for 10s will not burn.

Specification of Polyurethane Half Column Base

Product	Column
Model Name	BB-C 212B
Material	Polyurethane (PU)
Color	White
Dimension	Width:155mm × Height:295mm × Depth:74mm
Application	Interior and Exterior

PU Material

The density of PU materials is up to 240KG/M3, lighter than wood, but same hardness and touch feeling.
It is pest control, termites and moths do not feed on PU materials.
Fire rating to achieve the national B2 level, mean burning under the flame for 10s will not burn.

BB-C 212
